

Organizational structure & partners

Guiding Questions

- What are the roles, responsibilities and skills of your current core team?
- Which personnel and skills are additionally needed to successfully implement your project? How do you obtain and train new employees or volunteers?
- What are your organizational structure and processes? How can you illustrate those in an organizational chart?
- Which external partners do you need? What is their interest and influence on your project? How do you communicate and engage with those external partners?
